

ONLINE VIDEO PLATFORMS

GET TO KNOW YOUR OPTIONS AT UNCG

CANVAS STUDIO

Best for any size group of faculty and students

Canvas Studio ensures video learning and collaborative discussion with its easy video maker, engaging content, and video feedback.

GOOGLE MEET

Best for groups of up to 10 faculty, staff, and students

Google Meet is a video conference-calling platform designed to link remote groups together for real-time interaction.

PANOPTO

Best for any size group of faculty, staff, and students

Panopto is a lecture capture software that allows users to include video, audio, screen capture, labs, and slides into a recording.

ZOOM

Best for groups of up to 50 faculty, staff, and students

Zoom provides video and audio conferencing, collaboration, chat, and webinars across multiple devices and room systems.
